SKILLS

- **Project Execution & Monitoring:** Track milestones, deliverables, risks, scope and budget using PM tools.
- **Auditing & RCA:** Conduct audits, lead root cause analysis, implement corrective actions to prevent rework.
- **Team & Change Management:** Lead cross-functional teams, manage change logs, control scope and resources.
- **Stakeholder Interaction:** Deliver weekly updates, escalate risks and ensuring stakeholder alignment for clarity.
- **PM Tools & Utilities:** Gantt Chart, MS Project, Mural; create work plans, timelines, task assignments.

WORK EXPERIENCE

Compliance Lead

June 2024 – Present

Walmart

Ontario

- Managed project plans across 10+ sites by gathering business needs, defining scope, and executing deliverables aligned to compliance initiatives, ensuring stakeholder alignment and reducing rework across regulatory projects.
- Facilitated status reporting for leadership and cross-functional teams; tracked compliance milestones and escalated issues, resulting in timely risk resolution and 30% improvement in on-schedule initiative completions.
- Collaborated with market leadership to gather requirements, design training initiatives, and align resource planning with policy rollouts, maintaining consistency in scope and process across all functional groups.
- Pioneered risk logs and documented noncompliance reports, performed root cause analysis and issue triage using RCA tools, improving governance tracking and reducing recurrence of unresolved risk events by 25%.
- Monitored project budgets by tracking over 50 expenditures and resource allocation, ensuring 95% adherence to financial targets while managing change control processes to maintain scope, timeline, and cost-effectiveness.
- Administered control documentation and compliance reporting within project tracking systems, improving audit readiness and reducing project documentation turnaround times by 40% through centralization of issue logs.

Asset Protection

June 2023 – June 2024

Walmart

Ontario

- Orchestrated asset protection projects by defining loss prevention objectives, managing deliverables, and escalating gaps to site leadership, driving 20% improvement in high-risk zone visibility through workflow redesign.
- Designed and logged access control measures and system changes using action plans and project logs, ensuring delivery within timeline and improving stakeholder compliance by 35% through clear risk communication.
- Responded to high-severity incidents and documented findings via project tracking systems, coordinated resolution with inter teams, improving issue resolution efficiency and audit trail completeness across 100+ incidents.
- Deployed inventory management improvement projects by coordinating with logistics and security stakeholders, aligning system requirements and process changes using phased implementation and reducing errors by 25%.

PROJECT EXPERIENCE

(WIL Project): Smart-Stay Oasis: Automation Audit.

Project Manager

- Defined project scope, coordinated IT/business teams, and tracked status to meet all delivery milestones.

SOC Implementation with Threat Intelligence

Project Manager

- Drafted project plan, gathered requirements, and ensured delivery of real-time SOC with tracking reports.

Threat Hunting

Project Manager

- Directed risk review sessions, scoped hunting activities, and monitored KPIs to ensure timely issue resolution.
